## Diploma in Computer Engineering Student | Full-Stack Developer

Solapur, Maharashtra • +91 7558768475 • peeyushpawar3@gmail.com

### PROFESSIONAL SUMMARY

Second-year Diploma in Computer Engineering student and aspiring full-stack developer with hands-on experience building web interfaces, database-backed applications, and React projects. Comfortable with C/C++, JavaScript, SQL/PL/SQL, Node.js, Express, Oracle Database, PostgreSQL/Supabase, Linux and Git/GitHub. Also experienced in video editing and general operating-system setup and troubleshooting.

### TECHNICAL SKILLS

**Programming:** C, C++, JavaScript, SQL, PL/SQL

**Frontend:** HTML, CSS, JavaScript, React

**Backend:** Node.js, Express.js, REST APIs

**Databases:** Oracle Database, PostgreSQL, Supabase, DBMS

**Core CS:** Data Structures & Algorithms, OOP, Database Management Systems

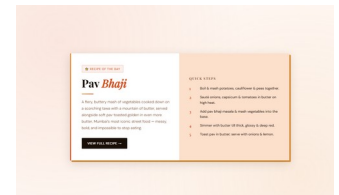

**Systems & Tools:** Linux, Windows, Git, GitHub, VS Code, SQL\*Plus, Render

**Creative:** Video Editing

### PROJECTS

#### The Hungry Coder — Recipe Discovery Website

Interactive food/recipe website featuring dishes such as Pav Bhaji, Dosa, Biryani and more, with dedicated recipe views, ingredients, quick steps and preparation guidance. Designed around a coder-and-food theme with visual recipe cards and detailed modal-style recipe content.

#### Student Result Management System — Full-Stack DBMS Project

- Built a student-result system with a web frontend, Node.js/Express backend and a real database connection.
- Worked with result records, DML operations, GPA/percentage views and database-side grade/GPA calculation logic.

#### Nexus Auth — Login / Authentication UI

- Designed a dedicated login/authentication user interface as a frontend project.

#### Healthcare Web App

- Developed a healthcare-themed web application project; further implementation details can be added as the project evolves.

### EDUCATION

#### Diploma in Computer Engineering — SES Polytechnic, Solapur

MSBTE • Currently in Second Year • Solapur, Maharashtra

### CERTIFICATIONS

**Defensive C++: Design by Contract & Features in C++** — Infosys Springboard • Completed 20 June 2026

**Advanced Excel** — GreyLearn • Completed 4 August 2026

### ADDITIONAL STRENGTHS

Problem Solving • Fast Learning • UI-focused Development • OS Handling & Troubleshooting • Adaptability • Continuous Learning
